DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art of record, taken as a whole, does not show nor suggest the claimed invention. Takano '306, for example, discloses that the material required by the claims (including the cobalt range) is known (see prior art portion of patent). And, Pekarsky '844, Mader, and Moriarty '244 disclose piston rings with gaps. However none give the dimensions for the gaps when installed as required by the claims. Nor do they disclose the claimed gap ratio. And, the prior art does not disclose the combination of limitations including the other claimed range for the edge curvature. Applicants have shown that the combination of limitations with the claimed material and ranges produces improved wear and sealing characteristics as shown in the tables.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alison K. Pickard whose telephone number is 571-272-7062. The examiner can normally be reached on M-F (9-5).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jennifer Gay can be reached on 571-272-7029. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
